A diagram showing a 10x2 grid of cells. The central 10x2 area is filled with 20 dark gray circles, arranged in two rows of ten. To the left and right of this central area are two large, empty rectangular regions, each defined by a vertical line on the outer edge and a vertical line adjacent to the grid. Below the grid, there is a small black square centered horizontally, and a dotted line runs horizontally across the bottom of the page.

The diagram shows a 5x5 grid of squares. The central 3x3 area of the grid contains dark gray circles. The grid is flanked by vertical bars on the left and right, and horizontal bars at the top and bottom. A small black square is located below the grid.
